

## Short manual Of ***Humic Active Amino***

*Humic Active Amino is an innovative Growth Stimulator with Billions of Positive Microorganisms, for foliar use.*

Humic Active Amino contains a patented recipe and a unique and proven composition of full range of Active Amino Acids and Microbial Metabolites and Microorganisms as Positive Fungus (more than 200 millions/g) together with Humic and Fulvic Acids.

### **COMPOSITION:**

- Active Amino Acid:** 20g/l
- Trichoderma and Mycorrhiza fungus:** more than 200 millions/g;
- Positive bacteria:** Actinobacteria, spore-forming, fluorescent bacteria, Pseudomonas, phosphorus, cellulolytic Azotobacter, Bacillus;
- Chelated Micro and macro elements:** N, P<sub>2</sub>O<sub>5</sub>, K<sub>2</sub>O, MgO, CaO, Fe, Mn, B;
- Humic and Fulvic Acid:** 30g/l;
- Soil proteins;**
- Growth substances** - vitamins, auxins and organic acids;
- Liquid;

### **BENEFITS:**

- Stimulates plant growth;
- Improves the quality of agricultural crops;
- Limits the impact of stress on plants;
- Increase your Yields by up to 30%;
- Improves the content of available macro and micro elements;
- Increases organic matter of soil;
- Improves crop respiration and photosynthesis;
- Complete plants nutrition;
- Regulates the release of nutrients;
- Bacteria of the Bacillus - produce natural enzymes that stimulate plant growth and reduce the occurrence of soil diseases;
- Azoto-bacteria – bind and make atmospheric nitrogen available to plants;
- Reduces losses caused by biotic and abiotic stresses by up to 50%;

*Think about Our Planet*

## *APPLICATION:*

### Foliar:

2–3 liters Humic Active Amino + 200–300 liters water /1 hectare.

Applied two times per season, first time in the beginning of growth and second time before flowering.

### *Packaging:*

- 20l canister
- 1000l tank
