

Short manual Of ***Humic Active Plus***

Humic Active Plus is a functional organic Soil Improver with Billions of Positive Microorganisms.

Very High content of Humic Acids. Comprehensive and innovative composition: Positive Bacterial Microflora, beneficial Mycorrhizal & Trichoderma fungi and growth-promoting enzymes.

COMPOSITION:

- Humic Acid:** 90%
- Trichoderma and Mycorrhiza fungus:** more than 10 millions/g;
- Positive bacteria:** Actinobacteria, spore-forming, fluorescent bacteria, Pseudomonas, phosphorus, cellulolytic Azotobacter, Bacillus;
- Micro and macro elements:** N, P₂O₅, K₂O, MgO, CaO, Fe, Mn;
- Coloidal silica;**
- Soil proteins;**
- Growth substances** - vitamins, auxins and organic acids;
- Cellulose, polysaccharides;**
- Liquid;

BENEFITS:

- Increases the profitability of production;
- Improves the quality of agricultural crops;
- Improves the content of available macro and micro elements;
- Increases organic matter of soil;
- Improves crop respiration and photosynthesis;
- Stimulates the strong development of the root system and parts of plants;
- Supports plant development;
- Enhances water holding capacity of soil;
- Reduces soil erosion and improves workability of soil;
- Regulates the release of nutrients;
- Bacteria of the Bacillus - produce natural enzymes that stimulate plant growth and reduce the occurrence of soil diseases;
- Improves the content of available Potassium;
- Phosphorus bacteria – make phosphorus available;
- Azoto-bacteria – bind and make atmospheric nitrogen available to plants;

Think about Our Planet

APPLICATION:

To the soil:

10 liters Humic Active Plus + 300 liters water / 1 hectare. Only two times per season – before sowing and after the harvesting.

Packaging:

- 20l canister
- 1000l tank
